ERALLY FAIR  
AND COOLER.

## NEW YORK'S LATEST FAKE

Newsboys Sell "Extra" Which Contains Front Page Story of Shooting of Thaw While Trying to Escape—Police Confiscate Copies of Paper.

New York, Sept. 1.—Thousands of New Yorkers pouring in from the beach trains at Brooklyn bridge during the night were victims of a fake sensation when they went down in their pockets for a nickel to buy a "newspaper" across whose front page in black letters three inches high they read:

"HARRY THAW SHOT TRYING TO ESCAPE."

The papers sold like wild fire, and those who bought received an even greater thrill for their money when they read below the report that Thaw was "killed" and one or more men with him in his dash for liberty were also "killed or injured," qualified, however, by the statement that the report was unconfirmed.

On close inspection the fake became apparent, as the issue was Volume 1, No. 1, of the "Sunday Telegram," printed in Philadelphia, where no regularly established paper of that name is known. The similarity which the name bore to a New York newspaper led to protests to the people and confiscation of about 500 copies which the newsboys then had unsold.

It is estimated that 100,000 copies of the fake newspaper had been sold in cities between Philadelphia and New York and in this city, with a profit of about \$2000 to the perpetrators of the enterprise.

## CONVENTION IN MONTREAL

Viscount Haldane and Many Other Notables Make Addresses at Bar Association Meeting—Frank B. Kellogg Delivers Annual Address

Montreal, Quebec, Sept. 1.—Premier Borden opened the annual meeting of the American Bar association with an address welcoming the most distinguished body of men ever gathered in Canada. The leading jurists of the United States are here almost without exception and besides them there are some of the most prominent members of the bar in Canada, England and France.

The session of the Bar association this morning was devoted to the address of welcome by the Canadian prime minister, the annual address of the president of the association, delivered by Frank B. Kellogg of St. Paul, the nomination and election of new members, and similar routine.

The event of the afternoon was the delivery of an address by Viscount Haldane, lord high chancellor of Great Britain.

Premier Borden, in his address of welcome, made felicitous reference to the ties of commerce and friendship between the United States and Canada. Jacob M. Dickinson, former American secretary of war, who introduced Mr. Borden, replied on behalf of the association.

Kellogg's Annual Address.  
The address of President Kellogg, which followed, dealt with the "treaty making power" and discussed the controversy aroused by the California anti-alien land law. Mr. Kellogg maintained the federal government has a right to make treaties regulating the status of foreign citizens within the states.

Mr. Kellogg maintained that the federal government had the right to define by treaty the status of a foreign citizen within the states, the places where he may travel, the business in which he may engage and the property he may own, both real and personal, and the disposition of such property after his death.

"If," said Mr. Kellogg, "citizens of Japan have any right to own real estate in California, it is difficult to see how this law takes away such right because it provides in substance that such aliens may acquire, possess, enjoy and transfer real estate in the manner and to the extent and for the purposes prescribed by any treaty."

The California law, he explained, discriminates between aliens eligible and those not eligible to citizenship, permitting the former to possess, enjoy, transmit and inherit real property in the same manner as citizens, and limiting those not eligible to citizenship to the rights extended to them by treaty with the government of the United States.

He said it was understood, however, by the public generally, that California claims the right to legislate in respect to land held by aliens notwithstanding any treaty provisions with the federal government. He asserted that the question thus raised is one of vital importance to our nation in its relation to foreign governments.

He pointed out that it is not to be presumed that the people of the United States intended to confer on the federal government a less power than

had been exercised by other nations since the dawn of civilization.

## WRESTLERS ARE READY FOR TONIGHT

To the winner of the wrestling match at the Orpheum theatre this evening will come the opportunity of meeting Chris Jordan, middleweight champion of the world. Jordan has issued a challenge to the winner and desires a match about September 15.

Waino Ketonen, the Finlander, who is causing the wrestling fans of the state to take notice, also desires a match with the winner.

Aside from the chances for another match with the champion, the match tonight is in the nature of a crisis for both wrestlers. Long came out here to secure matches with the wrestlers who have gathered in Utah. He lost his first match with Yokel, although he put up a clever contest. If he loses to Harbertson this evening, his prestige will go and it will be hard to get a match with another.

On the other hand, Harbertson's reputation is at stake. The Ogden man has always asked for a genuine match with Mike Yokel and desires another comeback with Jordan. Should he be defeated this evening by a man who was thrown by Yokel, his attraction as a drawing card will vanish.

The fans will claim that he has not got championship stuff in him.

The fans are sure to see a remarkably clean and fast match. No matter which man wins there can be no excuse of insufficient training or lack of condition. Harbertson stated to friends this morning that he is in excellent condition and will not be bothered in the least by the injury sustained by the match with Jordan.

Long has demonstrated by his work on the mat at the Orpheum during training period that he has abundant endurance. He has become accustomed to the altitude. Long boasts that when he is beaten he never gives any excuse but that the other man is the best. Consequently the fans will know the best man after the match this evening.

As a preliminary the battle royal between five men will be the feature. Wallace and Smalley, two fast local men will wrestle 20 minutes for a decision.

## HOOPER LOSES BALL GAME

Before a crowd of loyal rooters from both settlements, Plain City defeated Hooper in a 13 inning ball game at Plain City Saturday afternoon by the score of 6 to 5.

Singleton and Richards made up the batter for the home team and Jones and Beus did the honors for Hooper. Maw pitched the ninth inning for the Plain City team.

The game was interesting for the reason that the two teams head the list in the Mutual league of Weber county.

Threatening clouds of the morning failed to dampen the spirit of the various union members of Ogden who are holding a Labor day outing at the Hermitage and the indications are that a large crowd will be in attendance.

Precautions to prevent accidents have been taken by the Ogden Rapid Transit company. No trailers will be used. Instead there will be cars leaving the city every 10 minutes. It is believed by the adoption of the foregoing plan that quicker service will result and no danger.

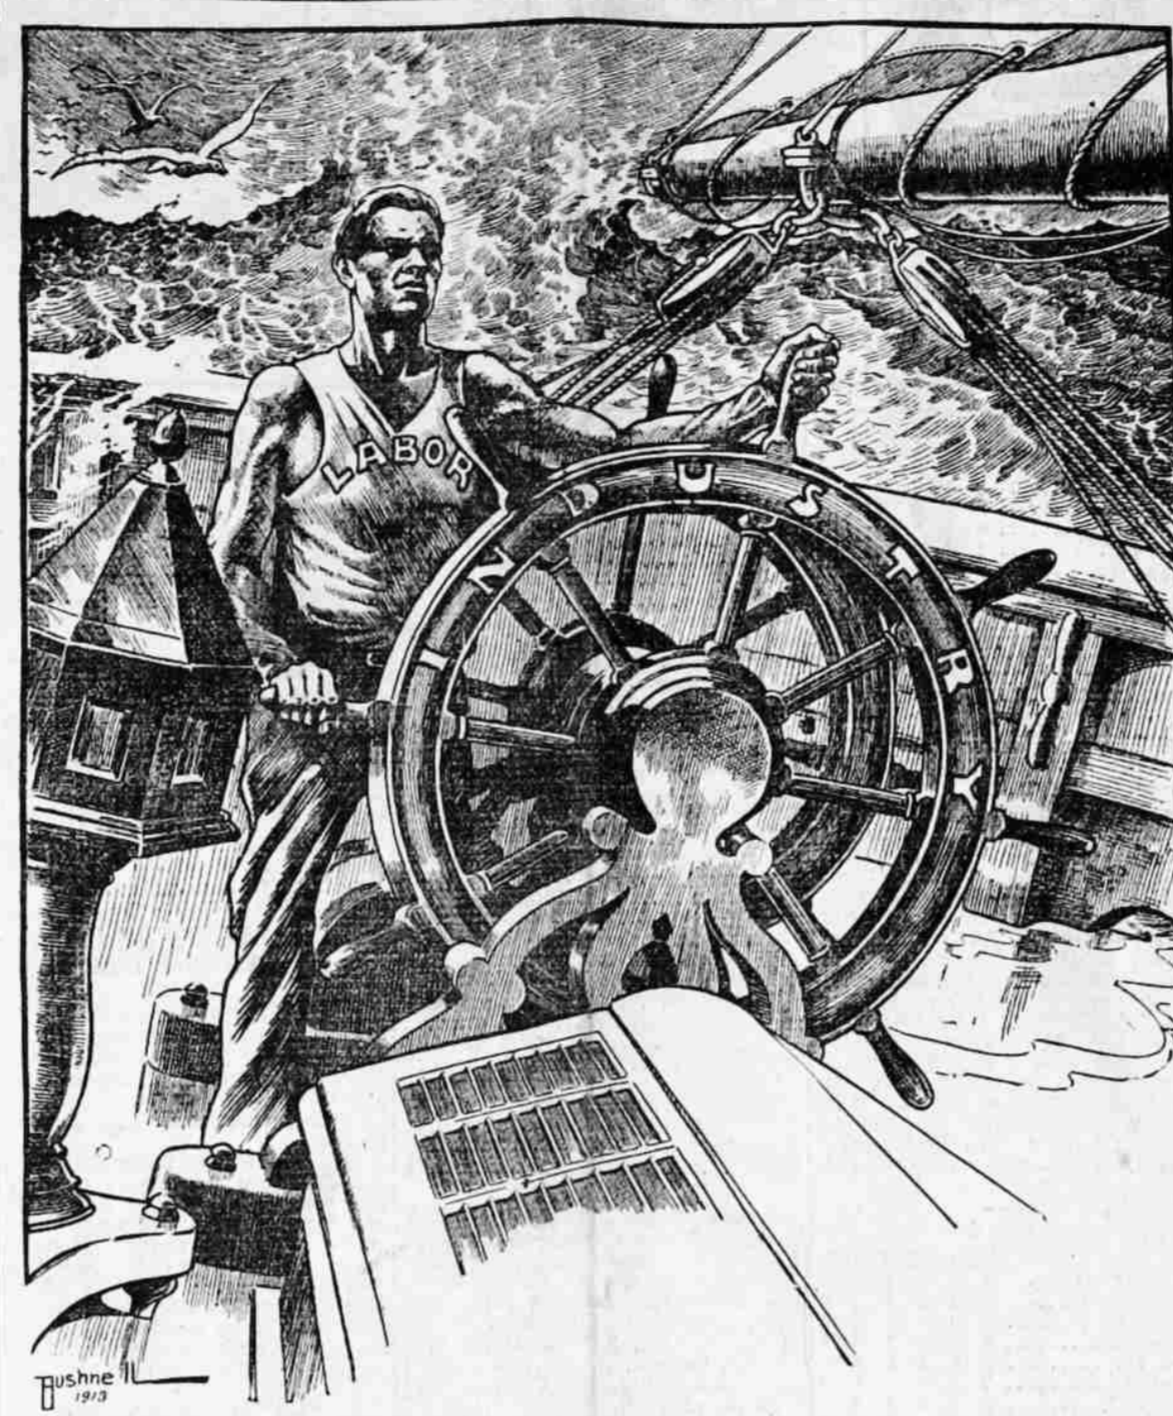

The program of sports began shortly after 12 o'clock. A prize of \$1 was given to the winner of the boys' foot race of 25 yards with a second prize of 50 cents. There were other races for girls, young men, young women, old men, fat men, lean men and in fact, races for everybody. For the man holding the oldest paid-up union card a prize of \$3 will be given.

At 3:30 o'clock there will be a concert with dancing in the pavilion. George Folkman will be the floor manager. There will be more dancing and music in the evening.

Practically every family that went to the Hermitage during the day carried picnic lunches. The excursionists went with the determination to enjoy the day in a pleasant and restful manner. The members of the committee were: Paul Bosgister, chairman; S. M. Moore, Henry Atwood, George E. Folkman and S. A. Lindh had charge of all arrangements and the success of the day in great part is due to their efforts.

In the city Labor day is marked by a general cessation of business. The retail merchants remained open up to noon to supply the trade with such perishables as groceries and meat, but most of the dry goods stores were closed. The city offices were closed also.

Police headquarters report a quiet day, with few cases of drunkenness.

## BLOOD SHED AT CALUMET

Strikers and Women Clash With Deputy Sheriffs—Fifteen-Year-Old Hungarian Girl Receives Wounds Which May Prove Fatal

Calumet, Mich., Sept. 1.—The copper strike situation in the Keweenaw peninsula of northern Michigan was given a more serious aspect this morning as the result of the shooting and wounding of the daughter of one of the strikers at the North Keweenaw mine, two miles north of Calumet, when a picket of strikers and women clashed with deputy sheriffs guarding the mine. The deputies claim that they were driven from the mining property by the strikers and when they returned to protect the property that the strikers fired on them.

Federated of Miners leaders deny this, claiming the deputies fired without provocation into the crowd of strikers and women, wounding several and fatally hurting Margaret Fazakas, Hungarian, aged 15 years.

Because of this shooting the military forces have again taken charge of the patrol work about the mines at Wolverine and the Keweenaw. General Abbey, in charge of the military forces, has ordered an investigation.

## AEROPLANE SOMERSAULT

Juvisy, France, Sept. 1.—A French aviator named Pegoud today "looped the loop" while flying at a height of 1500 feet in his aeroplane. He afterward descended without injury.

Pegoud recently caused a sensation by dropping safely from an aeroplane with a parachute. He announced before leaving the ground today that he intended to turn a somersault in the air with his aeroplane, and his movements were followed closely by a large body of observers.

When he reached a height of about 3000 feet, he turned the nose of his machine straight toward the earth and darted downward with his motor working at full power. After plunging about 100 feet with (rightful) velocity, he changed the position of his rudder and caused the aeroplane to turn a complete verticle circle. The machine then glided down in a huge spiral volplane and alighted gently on the ground.

Pegoud will repeat the feat tomorrow in the presence of a committee of military officers.

## THREE ATTEMPTS TO TAKE LIFE

San Francisco, Sept. 1.—Mrs. Vivian Lyons, formerly of Denver, made

three attempts to open arteries in her wrist yesterday, at the Central Emergency hospital, where she is recovering from poisoning. Mrs. Lyons told the police the poison was taken in a suicide pact with R. J. Widney, a young Los Angeles broker, whose removal to a private sanitarium was permitted by the district attorney. She inflicted two wounds with a hatpin which was then taken away from her and finally tore her bandages with her teeth. Her recovery is doubtful.

## THAW MAY LOSE FIGHT

Sherbrooke, Sept. 1.—The Thaw lawyers showed plainly today the nervousness and anxiety with which they look forward to tomorrow's proceedings in the superior court of St. Francis county.

The decision of Superior Judge Matthew Hutchison tomorrow, on the right of John Boudreau, chief of police of Coaticook, to demand the freedom of Harry K. Thaw, whom Boudreau arrested two weeks ago, will determine whether there shall be set in motion at once the machinery looking to Thaw's deportation, or whether Thaw shall be remanded to the Sherbrooke jail to remain until the session of the king's bench in October.

If Judge Hutchison sustains the writ of habeas corpus which was obtained for Boudreau by counsel acting for the state of New York, Thaw may be immediately turned over to the immigration authorities for deportation. Against this contingency, his lawyers have laid plans for a bitter fight.

Boudreau, in applying for the writ, contends that Thaw is held illegally, not being charged with any crime. There is the added clause that Boudreau is apprehensive lest he be liable to damages.

## RANDOM REFERENCES

Pumping Water.—The Howell Brothers are still pumping a large stream from the basement of their building on Washington avenue, near Twenty-fifth street. They abandoned the gasoline pump and installed a water jet syphon. Most of the concrete work for the heating plant at the rear of the main building has been completed.

Wildcat.—A full grown wildcat was seen upon the right-of-way of the Ogden Rapid Transit company near the Peery camp yesterday afternoon by the passengers on the car in charge of D. C. Morby and C. L. Fisher. Speed Patrolman William Reast was on the car, but before the cat escaped through the willows on the side of the river.

Storing Water.—The headgates at the power dam of the Utah Light & Power company in Ogden canyon were replaced Saturday and this morning it was reported that the water immediately above the dam was ten feet deep. It will not be many days until the power plant will be operated with waters from the big pipe line.

## TO PROTECT AMERICANS

Senator Bacon Says Those Who Do Not Wish To Leave The Country Will Receive The Best Possible Protection

Washington, Sept. 1.—Senator Bacon, chairman of the foreign relations committee, conferred more than an hour today with Secretary Bryan, after which he declared the Mexican situation seemed to be marking time.

"So far as I know," said the senator, "the Mexican situation is absolutely at a standstill. No word of importance has been received from Mexico City and nothing has come today from Mr. Lind, who remains in Vera Cruz. I do not know what he plans to do."

Senator Bacon said the suggestion by Mr. Lind to Senator Gumbo that the administration here would use its good offices with American bankers to encourage loans to Mexico was in no sense an offer by this government to guarantee any loans.

## BLOCK SIGNALS PUT OUT OF SERVICE

Block signals for several miles on the Wyoming division of the Union Pacific were placed out of commission during the night because of the pranks played by the lightning that continued for several hours.

According to Assistant Superintendent G. O. Brophy, the rain on the right-of-way of the Union Pacific east of Ogden was heavier than on Saturday. In fact, on Saturday the storm extended only to Morgan, although a severe storm was experienced at Wasatch.

Although heavy rains fell in Utah and Wyoming last night, the downpour was steady and no washouts occurred as in case of cloudbursts. All trains are arriving on time today.

## CLEAR UP MYSTERY

Philadelphia, Sept. 1.—The mystery surrounding the death of Miss James Jamison, who, with her brother, George Jamison, was found by her home in Radnor, near here yesterday, was cleared up today when the police got possession of a letter written by Miss Jamison to a woman relative in Philadelphia, informing her that her brother had declared his intention of committing suicide, that she had not the courage to live alone and would

therefore join him in death. Miss Jamison was 60 and her brother was 62. The woman died soon after removal to a hospital but the man is recovering.

The Jamisons had been well-to-do but had recently lost some money and the fear of poverty is said to have caused the man to decide on suicide.

## CONFERENCE OF GOVERNMENT EXPERTS

F. E. Newell, director of government reclamation projects, Chief Engineer Arthur Davis of Washington D. C., L. C. Hill, supervising engineer of the southern reclamation projects embracing California, Arizona, New Mexico and Utah, with headquarters at Los Angeles, and H. M. Savage, directing engineer of the northern reclamation division, embracing Montana, Wyoming and North Dakota, with headquarters at Helena, Montana, spent a short time in Ogden this morning on their way to Carson Nevada, where they will meet Secretary Lane of the Interior department in a brief conference regarding the Truckee-Carson reclamation project. The gentlemen will then visit other sections where the government has undertaken reclamation of the arid lands.

In the past few days, Mr. Davis and Mr. Hill have met with the farmers in the southern part of Utah county who are interested in the Strawberry valley project, with a view to getting them to come to some understanding as to the extension of the large canal that leads from the reservoir in Strawberry valley and from Spanish Fork canyon to the lands to be irrigated. It seems difficult for the farmers to agree among themselves just who should extend the canal from the Spanish Fork to the Payson district and Mr. Davis says that they are no nearer an agreement now than they were before he met them.

Mr. Newell had nothing in particular to say regarding the reclamation projects, except that he is well pleased with the results so far attained and he anticipates that the work of the future will be equally successful. He will make an inspection of a number of the projects before the returned to Washington, his visit here being more for the purpose of holding a conference with the chief engineer and his associates respecting certain projects that are in hand at this time.

It has been nearly two years since Mr. Newell was in this city on official business and he says that he is pleased with the changes for the better that have been made.

## HEAVY LOSS TO FRUIT ON THE SAND RIDGE

Later reports from the agricultural districts near Ogden are to the effect that the districts north and south were benefited by the heavy rain, but several orchards and fields in Wilson and on the Sand Ridge were damaged by the hail which fell with greater violence. The orchards of Bigelow Stecher, Moyes, Agee, Kelly, Creighbaum, Bennett and others were in the line of the hail and suffered severe loss. Eighty per cent of a wagon-load of peaches brought in this morning was damaged.

Other names have been added to the list of those business establishments that suffer from the Saturday afternoon downpour. The warehouse of the Ogden Furniture & Carpet company was threatened and a pump was operated to keep water from the stock. When the search was made for the pump it was found that the machinery had been loaned some time ago and a wagon was sent in haste to recover the property.

Damage estimated at \$500 was sustained by the George A. Lowe company when the water pouring over the hill east of the machine shop on 23rd street tore open a concrete wall and permitted the stream to enter the cellar.

At the Ogden Wholesale Drug company building a small fortune in drugs was stored in the basement. When the rain commenced a pump was secured from the Utah Construction company headquarters and the water was pumped from the basement before damage could result.

## ECCLES MILL WORKERS WIN

Employees of the Eccles mill won all events in the program of contests at the third annual outing of the mill workers of Ogden at Lagoon Saturday. In the ball game between the Eccles men and a team made up of employees of other mills, the score ended 12 to 4 in favor of the Eccles. So to in the swimming contests, the Eccles people came out ahead.

Louis Erbe, chairman of the committee, suffered the only misfortune of the day. He was thrown from the bank into the lake entirely clothed. While his clothes dried he wore a bathing suit and uttered maledictions on the millmen who had played the joke.

Will Entertain.—Thursday at 2 p. m. Mrs. A. A. McBride will entertain the St. Joseph's sewing society at the St. Joseph's hall.

## AMERICANS DIE IN RAID

Refugees From Durango, Mexico, Tell of the Outrages Committed Upon Foreigners by the Rebels and Bandits.

Los Angeles, Cal., Sept. 1.—American refugees are in force today here, having landed yesterday at San Diego. Sixty persons were brought north from Guaymas and vicinity by the United States cruiser Pittsburg.

T. L. Findley, on his way to his home in El Paso, Tex., declared that a number of Americans had been killed by bandits while attempting to reach the coast near Durango which was captured by insurgents. He came north on the steamer Bonito Juarez.

Findley gave a graphic description of the raid on the city of Durango by a band of 6000 rebels.

"There was a colony of about 150 Americans in Durango at that time," said Findley, "and they suffered like the rest, all their money, watches and jewelry being taken from them. The rebels did not even respect the United States consulate. They entered Consul Ham's residence and forcibly took possession of all his arms and ammunition, although they did not molest his personal belongings."

Immediately following the raiding of Durango, a number of Americans left for Mazatlan by way of a mountain trail and never were heard of. The supposition is that they fell into the hands of bandits and were murdered."

## TIME TABLE OF CAR LINE IS CHANGED

Beginning tomorrow morning the 21st street and Wall avenue cars will leave the ends of the line at 6:25 a. m. and every 20 minutes thereafter until 11:45 p. m. after which they will leave at 12:03 and 12:20.

There will be no changes in the Twenty-fifth street line schedule.

The 23rd street car will leave Harrison avenue and 24th street at 8:35 a. m. and every 20 minutes thereafter until 12:12 a. m. It will leave 25th street and Washington avenue at 6:45 a. m. and every 20 minutes thereafter until 12:05 a. m.

On a Tour.—City Ticket and Passenger Agent Paul Beemer is among the party of Salt Lake railroad men taking a special two-day tour of Yellowstone park by way of the Ogden camps. He will return to Ogden tomorrow.

Bids on Depot.—Agent Frank Fouts of the Denver & Rio Grande railroad expects to hear tomorrow from Denver regarding the awarding of the contract on the big freight depot to be constructed this fall. Bids were sent to Denver and opened on August 25.

## TODAY'S GAMES

Reds Beat Pirates.  
Pittsburg, Sept. 1.—(National).—Morning game: R. H. E.  
Cincinnati ..... 5 6 1  
Pittsburg ..... 4 11 2  
Batteries — Packard, Brown and Clarke; Kling, Adams, Hendrix, Robinson and Simon, Gibson.  
(10 innings.)
